THOUSANDS OF FAMILIES CREATED

We manage **many thousands of infertility treatments and IVF cycles** for large healthcare purchasers each year. We now offer patients **without fertility medication insurance** the same type of quality and affordability, thanks to our **WINFertilityRx BundlesSM**.

WINFertility Medication Bundles are discounted to save up to significantly less than retail medication prices. We can refer patients to financing programs that make affording treatment even more manageable.

Patients have a designated **Nurse Care Manager** to advise, explain and provide support throughout their treatment process.

MEDICATION BUNDLES SAVE MONEY

The components of a 'typical' IUI or IVF cycle are different for each individual patient. The medications required will also have a unique plan for each patient. The exact combination of drugs requires an extreme amount of your physician's skill and expertise.

WINFertilityRx Medication Bundles include the majority of the fertility medications your physician prescribes for you*. Our packages include most of the costly drugs required for IUI and IVF at **real discounts**, providing you with **real savings** for your total infertility cycle.

Other medications that your physician prescribes can be included through our Specialty Fertility Pharmacy at their Cash Discount Price.
